

Sandesh Kumar Jadhav

Business Analyst/ Data Analyst/ Consultant

Mobile: +917219170150 || Email: jadhav.sandesh4204@gmail.com || LinkedIn: [Sandesh Kumar Jadhav](#)

Experienced MBA student with 1.5 years in IT and Management seeking roles in Business Analysis, Data Analytics, or Consulting within IT, Banking, or Finance sectors. Skilled in data science, machine learning, and business intelligence, aim to drive transformative insights and strategic decisions

KEY PROFICIENCIES

- Data Mining
- Machine Learning Algorithms
- NLP and Text Analytics
- Data Preprocessing
- Data Analytics
- Data Analytics & Governance
- Process Reengineering
- Program Management
- Predictive Modelling
- Statistical Analysis
- Business Intelligence

TECHNICAL PURVIEW

- Office Productivity: Microsoft Office Suite: Word, Excel, PowerPoint, Outlook
- Data Analysis and Visualization: SPSS, PowerBI/Tableau
- Python: Machine Learning, Deep Learning, Natural Language Processing
- Data Science / Artificial Intelligence: R, Python, Data Mining, Machine Learning, Natural Language Processing, Statistics
- Big Data / IoT / Machine Learning: Artificial Intelligence, Big Data, Machine Learning, IoT, Python Language
- Software Development / Database Management: C, C++, Java, DBMS, RDBMS, MySQL

ACADEMIC CREDENTIALS

- 2025: MBA in Data Science and Data Analysis from Symbiosis Centre for Information Technology
- 2023: Master of Computer Applications (MCA) in Computer and IT from Jain University
- 2019: Bachelor of Computer Science (BCS) from Savitribai Phule Pune University

PERSONAL DOSSIER

- **Nationality:** Indian
- **Date of Birth:** Please Provide
- **Languages Known:** English, Hindi & Marathi
- **Address:** Pune, India

PROFILE OVERVIEW

- Dedicated Business Analyst, Data Analyst, and Consultant with a robust background in computer science and an MBA in Data Science and Data Analytics from Symbiosis Centre for Information Technology
- Demonstrated proficiency in leveraging data science solutions to drive business transformation and enhance market performance
- Expertise includes data mining, machine learning algorithms, NLP, data preprocessing, statistical analysis, and business intelligence
- Skilled in utilizing various data analysis and visualization tools such as SPSS, PowerBI/Tableau, and Python for machine learning, deep learning, and natural language processing
- Adept at developing computationally complex data and ensuring deliverables meet high-quality standards
- Key accomplishments include completing significant projects like the development of a Chatbot using the Rasa framework and conducting sentiment analysis of Flipkart products
- Additionally, adept at managing programs, conducting predictive modelling, and implementing process reengineering initiatives
- Continuously seeking to enhance skills and knowledge through professional development initiatives, including completion of Neural Network and Deep Learning training by DeepLearning.AI and KPMG's Data Analytics Consulting Virtual Internship

WORK EXPERIENCE

2022 - 2023: Systems Executive at Cognizant Technology Solutions | Pune

Key Result Areas:

- Troubleshoot and resolve hardware and software issues for end-users, ensuring smooth IT operations.
- Analyse source systems and existing data analytics processes, gathering user requirements and drafting technical specification documents.
- Oversee feasibility studies for technology-related needs and manage migrations to new databases and applications.
- Develop intricate and functional data sets, ensuring high-quality deliverables meet stringent standards.
- Support the development, sharing, and improvement of dashboard and reporting solutions using Tableau, Business Objects, and Crystal Reports.

PREVIOUS WORK EXPERIENCE

2021 - 2022: Virtual Customer Service at Amazon India Limited | Pune

SIGNIFICANTLY PROJECTS UNDERTAKEN

- **Project 1: Emblem Health**
Emblem Health is a prominent health insurance provider based in the USA, offering comprehensive technical support to clients and overseeing software resource management.

PROFESSIONAL DEVELOPMENT

- 2024: Completed Neural Network and Deep Learning training by DeepLearning.AI on Coursera.
- 2023: Undertook KPMG's Data Analytics Consulting Virtual Internship through Forage.
- 2023: Acquired ISO 22301:2019 certification in Business Continuity Management System from Udemy.
- 2022: Earned Microsoft Certified: Azure Fundamentals certification from Microsoft.
- 2024: Completed Sequence Models, RNN training on Coursera.
- 2019: NCC 'C' Certificate
